

FARNHAM TOWN COUNCIL

Annex 6

Report Council

January 2023

Risk Management Review 2022-23

Introduction

- 1 As part of the Accounts & Audit Regulations and Health & Safety At Work Legislation, the Town Council is required to maintain an effective programme of risk management and ensure that all policies and procedures in place are subject to regular review
- 2 Each year, the Council reviews a range of risks affecting the organisation in each of the service areas and as a corporate body. It is assisted in its task by a number of advisors including the Internal and External Auditor and by WorkNest (formerly Ellis Whittam) the Council's HR and Health and Safety advisors. This report deals with the whole range of risks and builds on work already undertaken by the individual Working Groups in the autumn cycle.

Background

- 3 Risk is an uncertain event or condition that, if it occurs, will have an effect on the achievement of an authority's objectives. Risk management is the process whereby authorities methodically address the risks associated with what they do and the services which they provide. The focus of risk management is to identify what can go wrong and take proportionate steps to avoid this or successfully manage the consequences. Good risk management allows stakeholders to have increased confidence in the authority's corporate governance arrangements and its ability to deliver its priorities.
- 4 Risk management is not just about financial management; it is about protecting the achievement of objectives set by the authority to deliver high quality public services. The failure to manage risks effectively can be expensive in terms of litigation and reputation, and can impact on the ability to achieve desired outcomes. The Council generally and members individually are responsible for risk management alongside the Town Clerk and staff.
- 5 Risk management is an ongoing activity that comprises four elements:
 - identifying risks;
 - assessing risks;
 - addressing risks; and
 - reviewing and reporting.

Identifying risks

- 6 In order to manage risk, an authority needs to know what risks it faces. Identifying risks is therefore the first step in the risk management process.
- 7 The specific risks which individual authorities and service areas face varies in accordance with the range, nature, complexity and scale of the organisation. For this reason, each Working Group reviews its own risks in the autumn cycle of meetings to identify any key risks to achieving successfully priorities and service objectives.

- 8 There are some overall categories of risks which are covered by Strategy & Finance and Council as a whole.
- financial – loss of money;
 - security – fraud, theft, embezzlement;
 - property – damage to property;
 - legal – breaking the law or being sued;
 - IT – failure of IT systems or misuse; and
 - reputational – actions taken could harm the authority's public reputation.

Addressing risks

- 9 Risk is unavoidable, and every organisation needs to take action to manage risk in a way which it can justify to a level which is tolerable. The response to risk within the organisation, is called internal control and may involve one or more of the following standard responses:
- **Tolerate** the risk - for risks where the downside is containable with appropriate contingency plans; for some where the possible controls cannot be justified (e.g. because they would be disproportionate); and for unavoidable risks, e.g. terrorism.
 - **Treat** the risk - a common response which can mean imposing controls so that the organisation can continue to operate; or setting up prevention techniques.
 - **Transfer** the risk – buying in a service from a specialist external body or taking out insurance. Some risks cannot be transferred, especially reputational risk.
 - **Terminate** the activity giving rise to the risk - it may be best to stop (or not to start) activities which involve intolerable risks or those where no response can bring the risk to a tolerable level.
- 10 During 2022, Farnham Town Council undertook a number of activities to minimise risk. These included the refurbishment of the West Street Cemetery Gates and Central Car park toilets with new non slip flooring. Regular inspections of cemeteries, allotments and Gostrey Play area are undertaken and FTC's insurer Zurich conduct there own survey annually on the play area. FTC are continuing to invest in pathway repairs and the removal of dangerous trees. The quinquennial tree survey was conducted in 2022 and a number of trees (24) were identified that required felling. The most dangerous of these were felled immediately with the other identified trees being felled in early 2023. Continual investment in training and personal protective equipment for staff.

Assessing risks

- 11 Through the Working Groups the potential consequences of a risk occurring (the impact) and the likelihood are reviewed in a matrix with a Scoring range 1-3 (Low, medium, high). The two factors are multiplied to create a combined risk value and specific attention is given to any risk scoring six or above. There are no matters of concern to bring to Council but further details are available upon request.

Managing risk

- 12 Some risks are managed through the Council's Insurance policies:
- The protection of physical assets owned by the authority – buildings, furniture, equipment, etc. (loss or damage).
 - The risk of damage to third party property or individuals as a consequence of the authority providing services or amenities to the public (public liability).
 - The risk of consequential loss of income or the need to provide essential services following critical damage, loss or non-performance by a third party (consequential loss).
 - Loss of cash through theft or dishonesty (fidelity guarantee).
 - Legal liability as a consequence of asset ownership (public liability).
- 13 Areas where risk is managed by working with third parties include the following:
- Security for vulnerable buildings, amenities or equipment (eg Shield Security).

- Maintenance of buildings, amenities or equipment.
- The provision of services being carried out under agency/partnership agreements with principal authorities.
- Banking and investment arrangements.
- Ad hoc provision of amenities/ facilities for events to local community groups.
- Equipment lease or hire where needed.
- Professional services (planning, surveying, arboricultural, accountancy, legal etc.).
- Health and safety (Contract with Worknest (Ellis Whittam) for an annual inspection and advice, external training for first aid, evac chair etc;

Workplace Health and Safety

14 Health & Safety risk assessments are an examination of anything in the workplace that could cause people to suffer injury or ill health whilst they are at work. Staff and councillors have individual responsibility to avoid risk and report matters or unsafe practices that may give cause to a risk.

All employers have a legal obligation to carry out risk assessments under *The Management of Health & Safety at Work Regulations 1999*. As well as complying with the legal requirement and having the potential to save money, risk assessments are useful in determining:

1. training programmes
2. the adequacy of information available
3. personal protective equipment needs
4. health surveillance levels

15 Farnham Town Council has an annual General Risk Assessment Report commissioned from Worknest (Ellis Whittam). The current Inspection is due on the 25th January having been deferred by Worknest and a report based on the day-long examination of the systems in place at the Council will be presented once received. The key findings of the report after the most recent visit by Johnny Daffue on the 19th January 2022 are set out below.

	Vibration	Lift	Fire	Storage	Manual Handling	Gas
Identified issue	Carry out a specific vibration risk assessment to help determine main sources of vibration and whether this is likely to be above the daily Exposure Action Value (EAV).	Obtain a report of the last thorough examination and keep available for inspection for a minimum of 2 years	This assessment is only an overview on fire safety within your buildings ,Carry out or commission a specific fire risk assessment to be carried out ,this must be reviewed regularly.	Review the storage of items on the 2nd floor storage area, Clean up /clear up of combustible materials and refrain from storing additional combustible materials in this area.	Establish a safe system of work for all work at height activities and ensure that all those involved have been briefed and understand the system, record all training given	Prepare a gas leakage procedure to identify what needs to be done in the event of a leak or emergency situation.
Risk Level	Low	Low	Low	Medium	Medium	Low
Officer Responsible	I McCready	I McCready	I McCready	I McCready	I McCready	I McCready
Completed	Yes	Ongoing	ongoing	ongoing	Yes	Yes

The number of 'Actions required' as a result of the eight surveys since 2011/12 is as follows:

	No. of Action Points	No. requiring immediate or short term action.
2011/12	72	5
2012/13	39	2
2013/14	13	0
2014/15	7	1
2015/16	18	1
2016/17	29	5
2017/18	3	0
2018/19	3	2
2020/21	1	1
2021/22	6	0
2022/23	Awaited	Awaited

16 External contractors undertake the following on behalf of the Council:

1. **Electrical Installations** – All buildings are tested every five years for the condition of its fixed electrical wiring. The Council Offices and the Depot were tested in early 2022, Wrecclesham Community Centre, West Street Chapel, Victoria Gardens, Gostrey Meadow toilet block, the Hart toilet block and the Central Car Park toilet block were tested in 2021 and are due again in 2026 Electrical Appliance Testing is undertaken annually for those items that require testing and periodically in accordance with the type of item as required.
2. **Gas Installations** – the boilers at the Council Offices and Wrecclesham Community Centre are safety-checked every year.
3. **The Lift** at the Council offices is inspected quarterly in accordance with insurance requirements. Action is being taken on matters raised at the most recent inspection
4. **Fire** – A fire risk assessment was undertaken by an external consultant in December 2011 and subsequently in house. There are no changes that have taken place that cause concern.
5. **Legionella** Testing takes place annually
6. **Asbestos.** As required. Relevant items are marked to identify any asbestos risk.
7. **Risk.** The Council reviews risks regularly with its insurers (Zurich) when new areas/activities are introduced (eg supporting vaccination testing and the new playground inherited from WBC).

Financial risks and related Issues

- 17 The new General Data Protection Regulation has brought in new duties on protecting personal data and reporting where lapses occur. Any such breach is reported to Council.
- 18 The financial risks of the organisation are considered as part of the independent Internal Auditor's work. The most recent visit was in November 2022 with the Internal Auditor's Interim report reported to Council in January 2023. The Internal Auditor uses as a basis for his work the latest edition of *Governance and Accountability – a Practitioners' Guide to proper practices*, and the related checklists therein. Potential loss of income is managed by having adequate reserves in accordance with audit guidelines and effective fidelity insurance cover. There is effective separation of duties to ensure that more than one person is involved in financial transactions to minimise the potential risk for fraud. Risks of absence of key personnel for an extended period are covered by the creation of process manuals on main areas of activity and work shadowing so other staff are aware of work requirements wherever possible and some key personnel insurance cover. In the event of an extended absence of the Town Clerk, locum support is available through the Surrey Association of Local Councils and elsewhere.

- 19 The Financial Regulations were last reviewed in 2020 and Standing Orders in March 2021. Both are due for review in March 2023
- 20 In underpinning the Council's approach, Farnham Town Council readopted in 2021 its:
- Health and Safety Policy Statement
 - Fire Safety Management Policy Statement
 - Environmental Policy Statement
- These will next be reviewed in 2023.

Recommendations to Council

- i) The Risk Management report be welcomed and adopted;
- ii) The work done by the Working Groups in managing risk be noted.
